01. First version: results on desktop

Watch list, price chart, results sorted by total cost with deal badges.

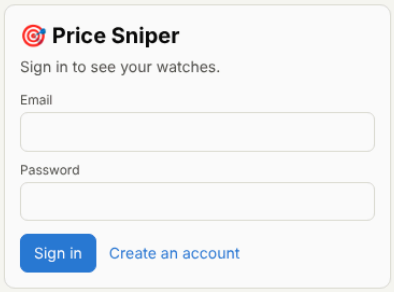

02. First version on a phone (dark mode)

The layout stacks for small screens.

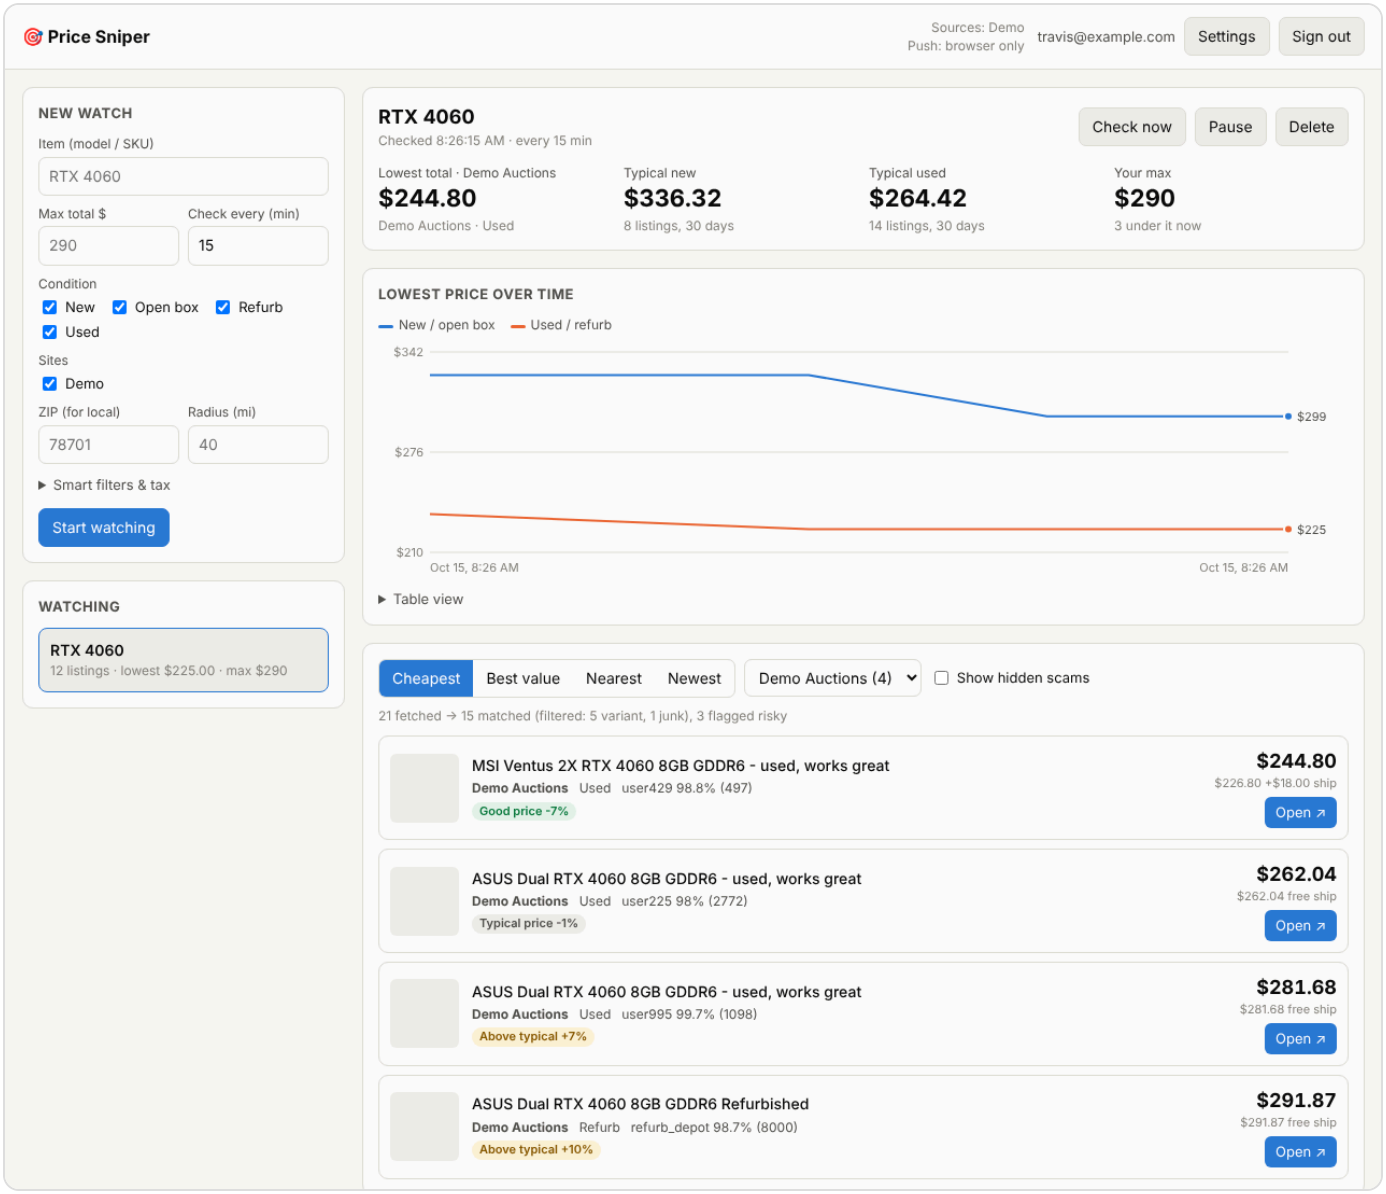

03. Sign-in screen

Added with accounts, so each person's watches stay private.

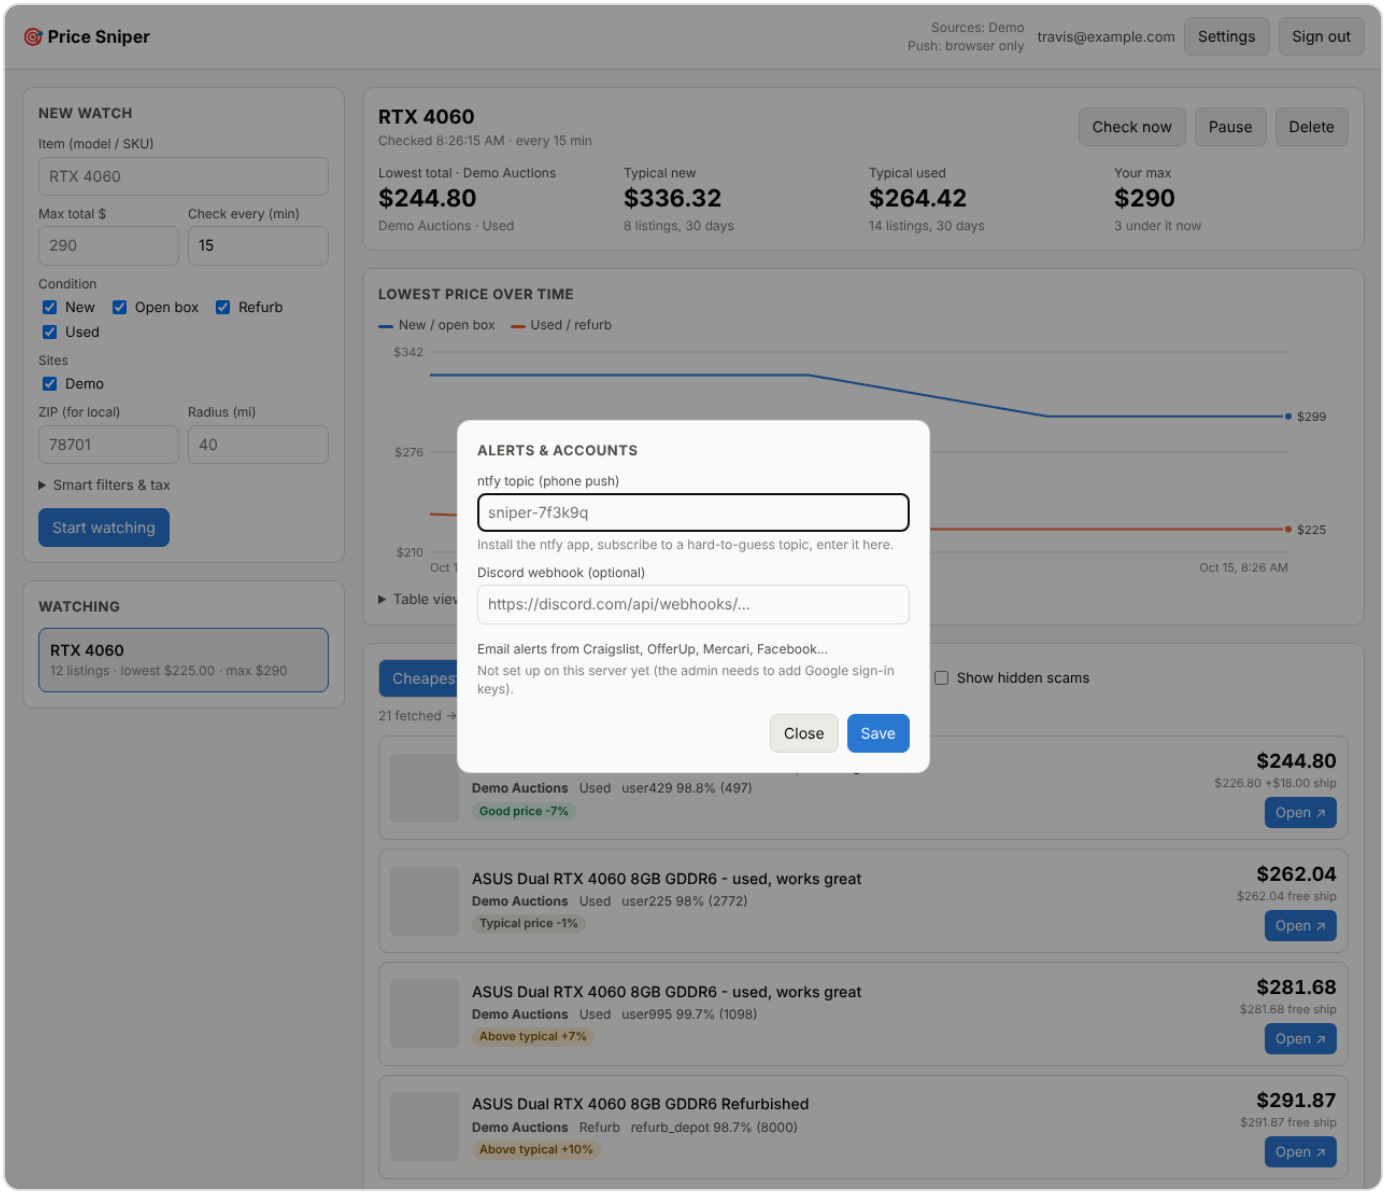

04. Site filter dropdown

Pick one site to see only its listings; the counts per site are shown.

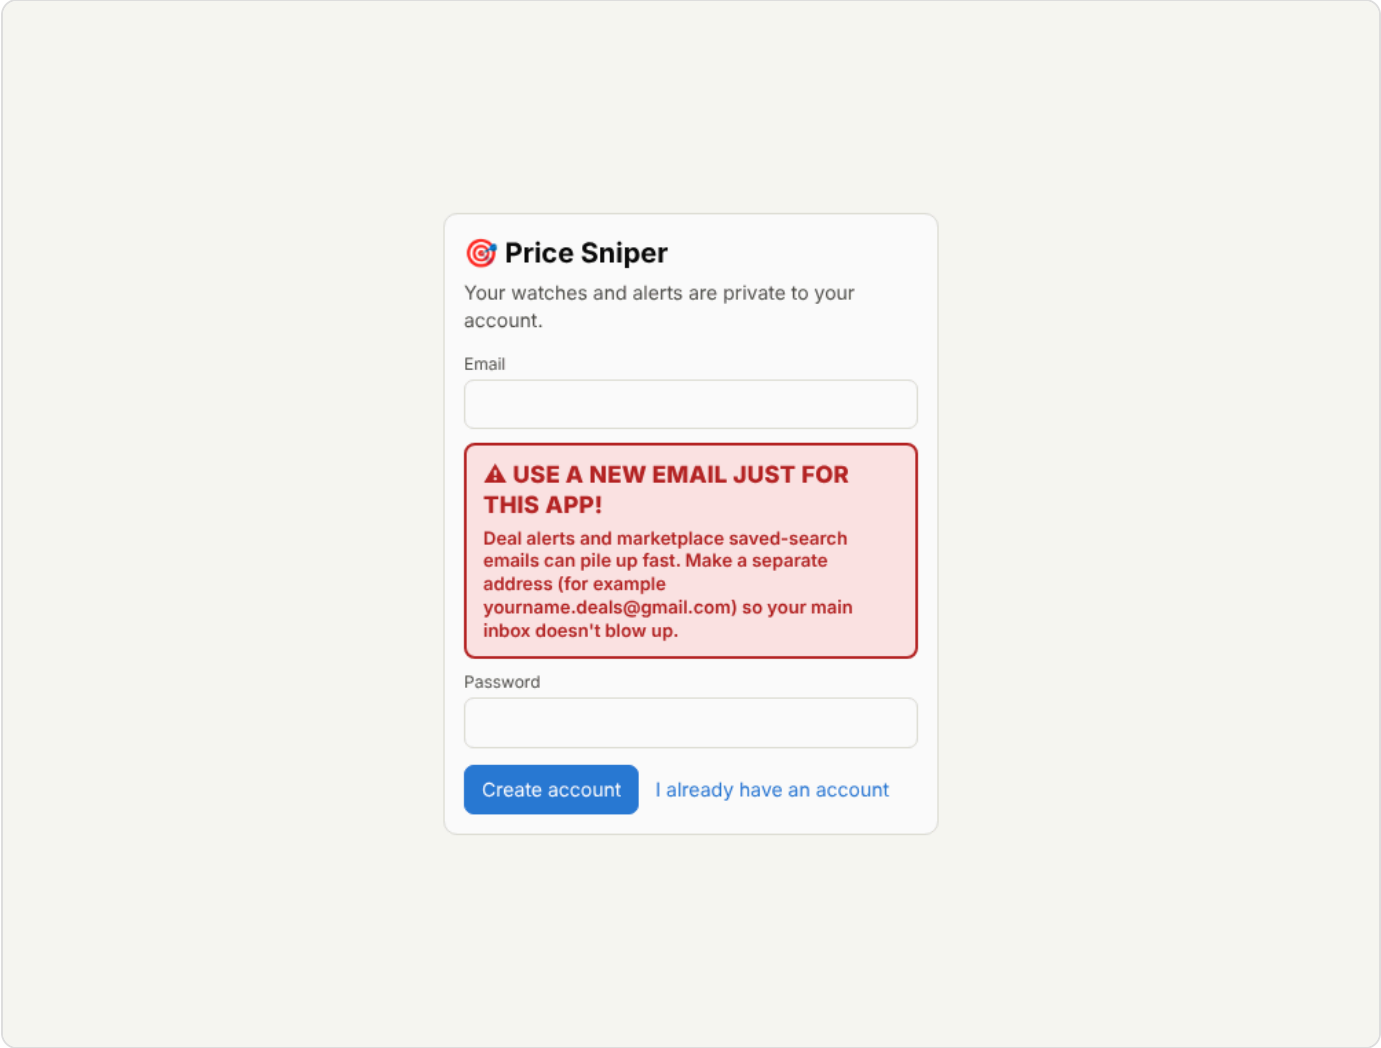

05. Settings: alerts & Gmail

Per-user ntfy phone push, Discord, and the Gmail alert-email connection.

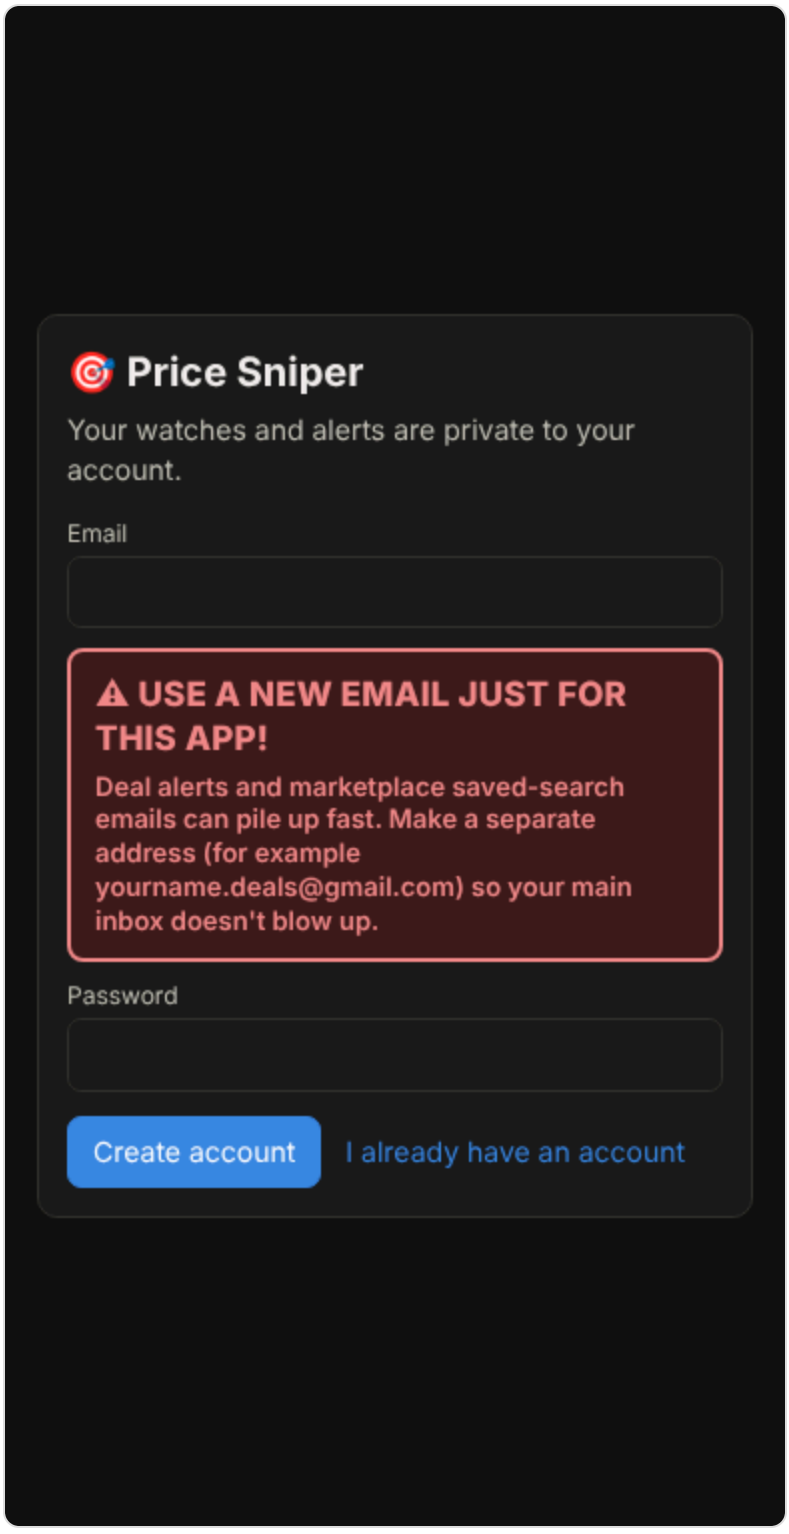

06. Big red 'use a new email' warning

Shown when creating an account.

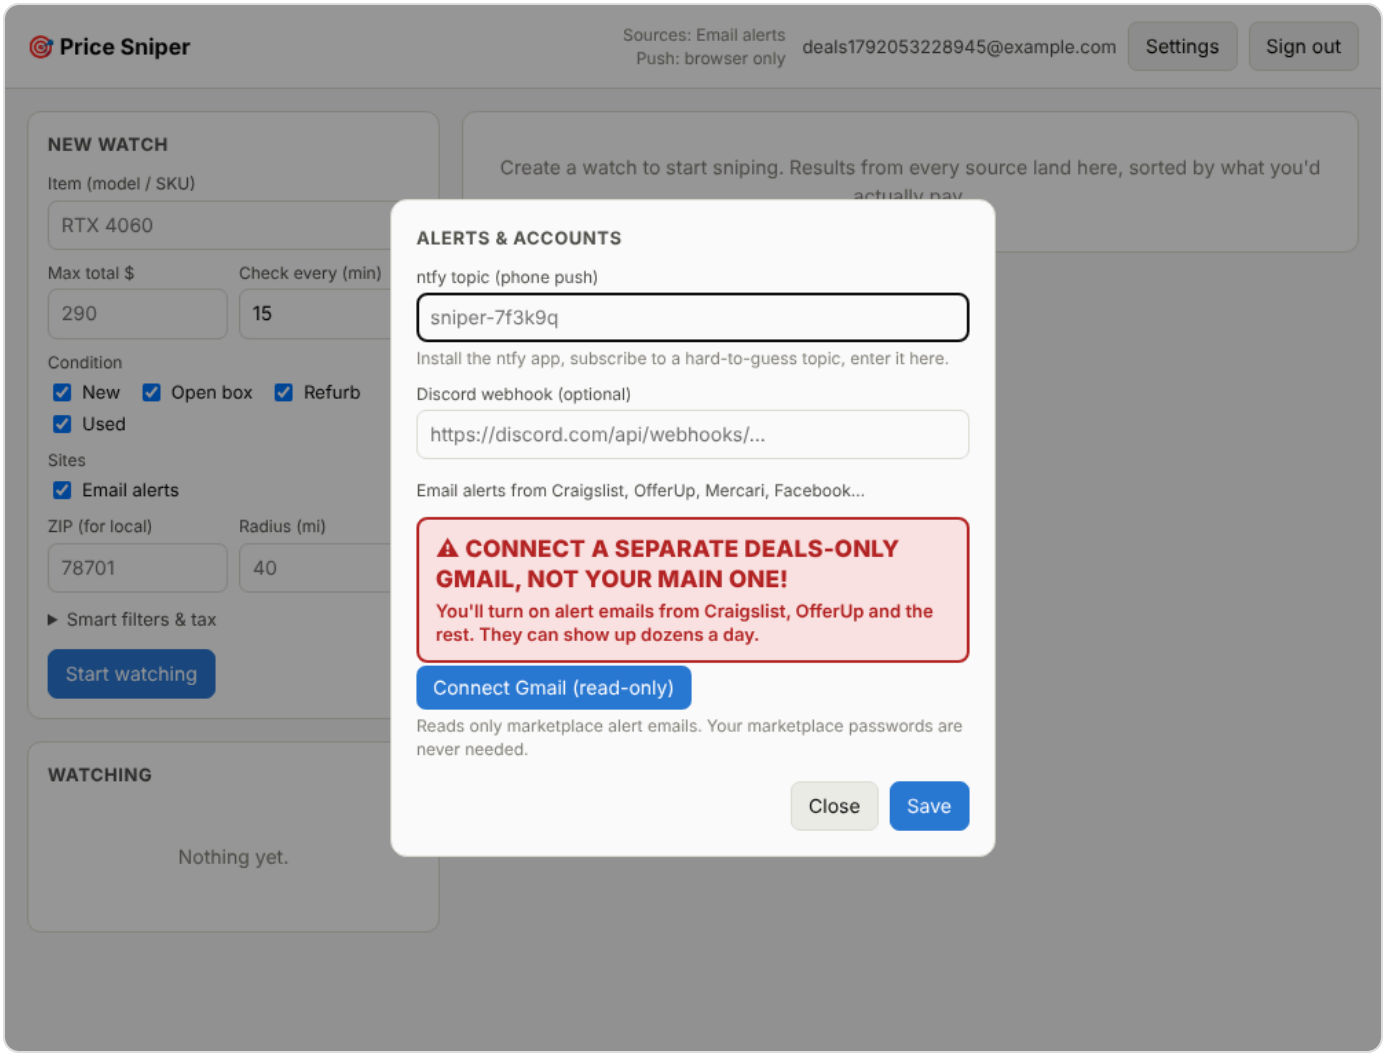

07. Same warning on a phone (dark mode)

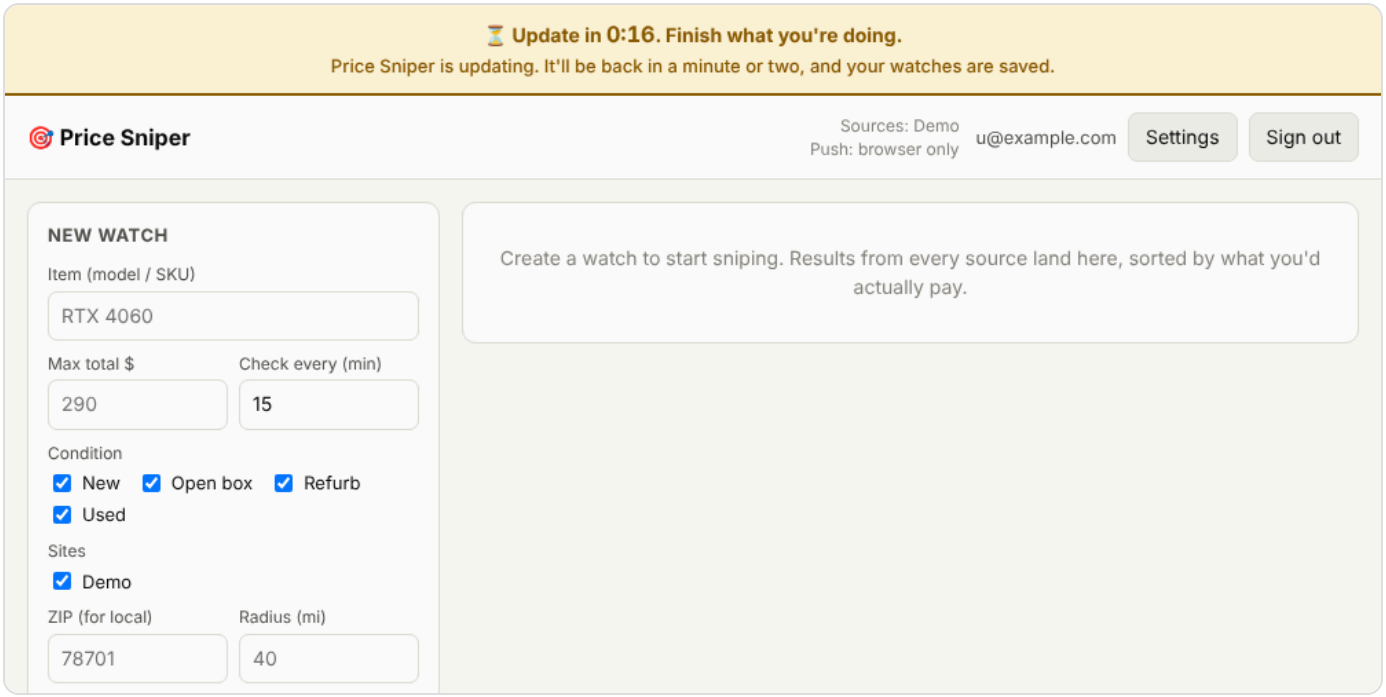

08. Gmail connect warning

Reminds people to connect a deals-only Gmail.

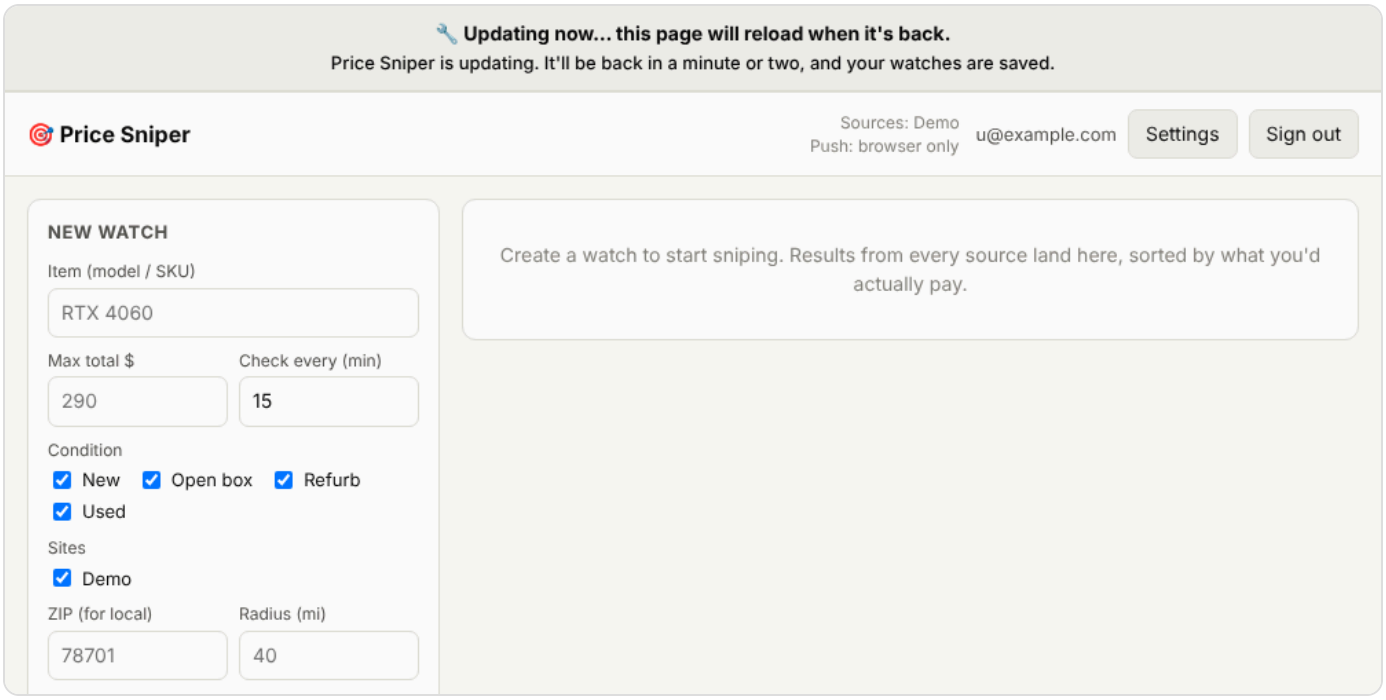

09. First update banner (yellow)

The original heads-up before an update. It was later made bigger and orange.

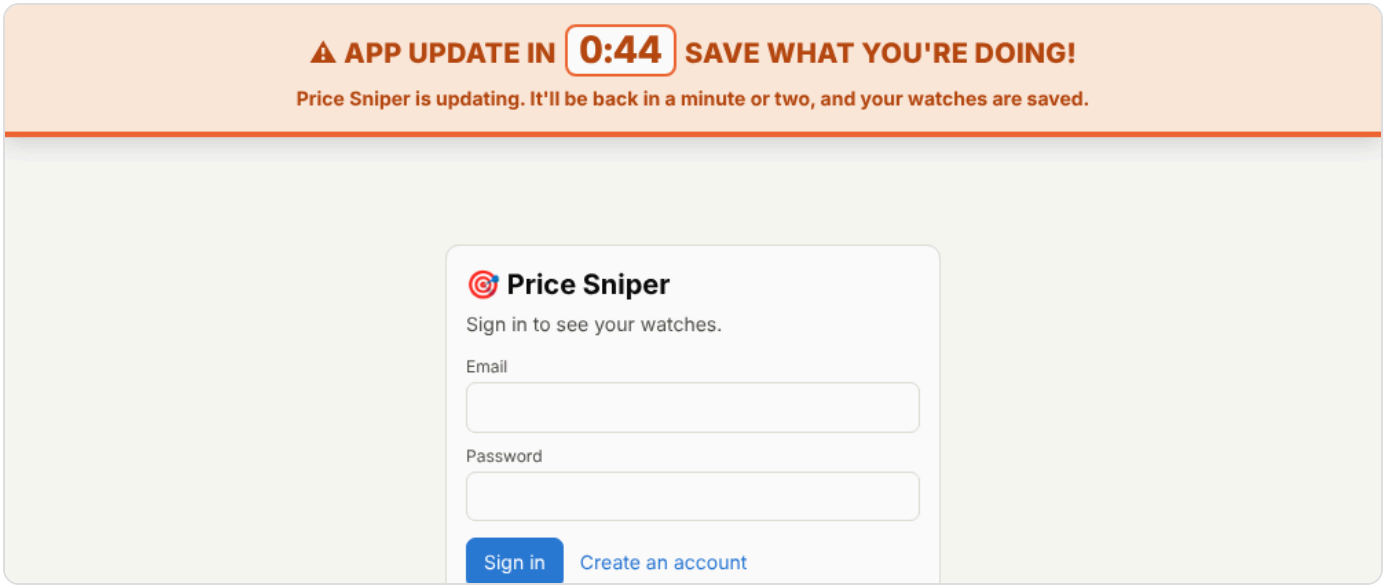

10. 'Updating now' (first version)

Shown while the app restarts.

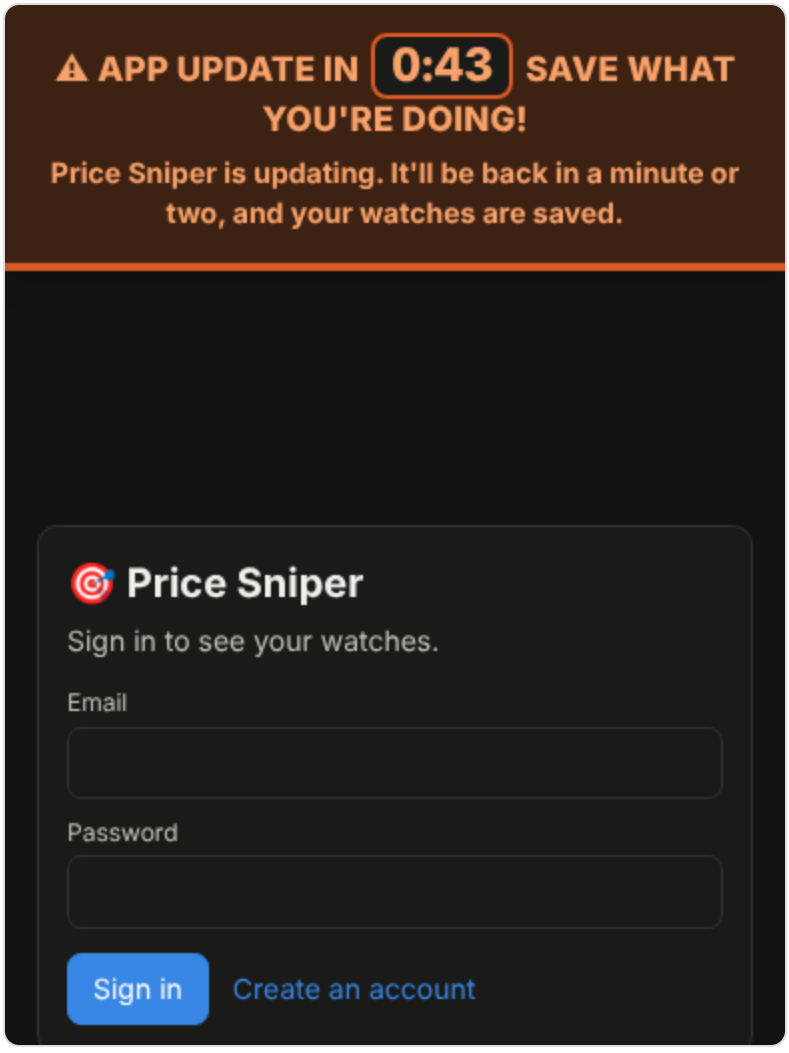

11. Orange update banner on the sign-in screen

Big countdown in its own box.

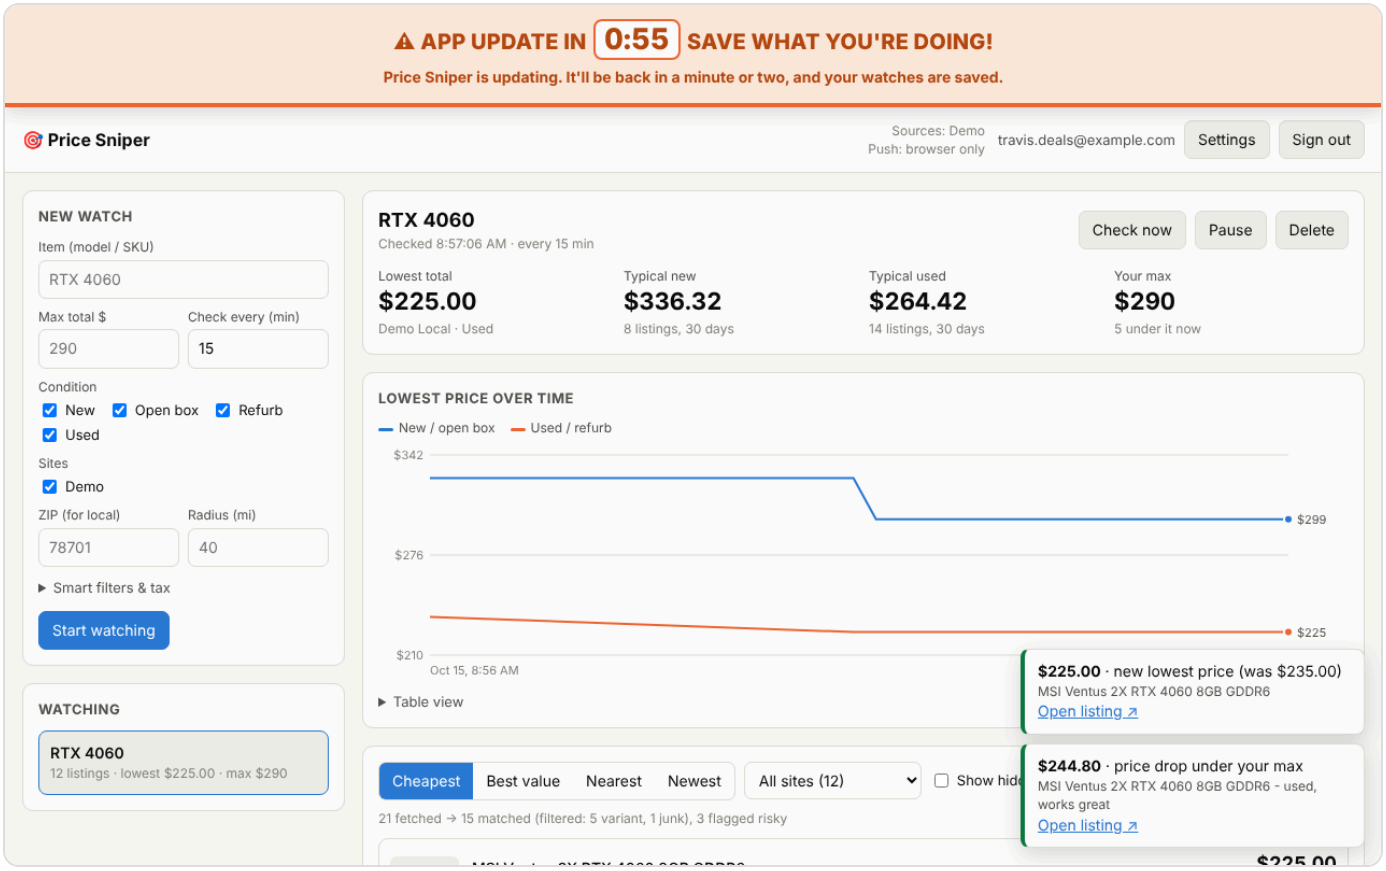

12. Orange update banner on a phone (dark mode)

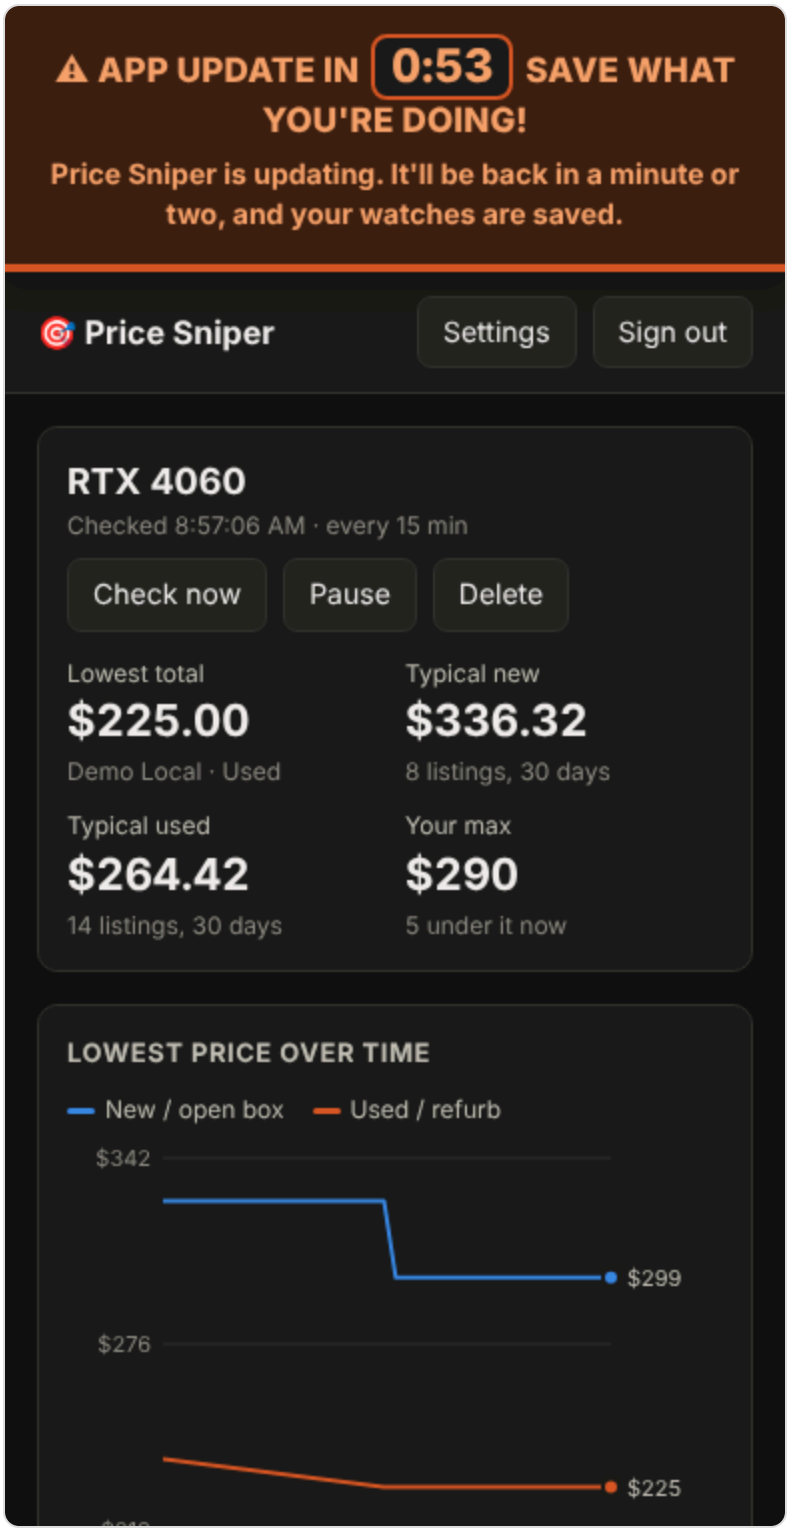

13. Orange update banner inside the app

With a test watch and deal alerts in the corner.

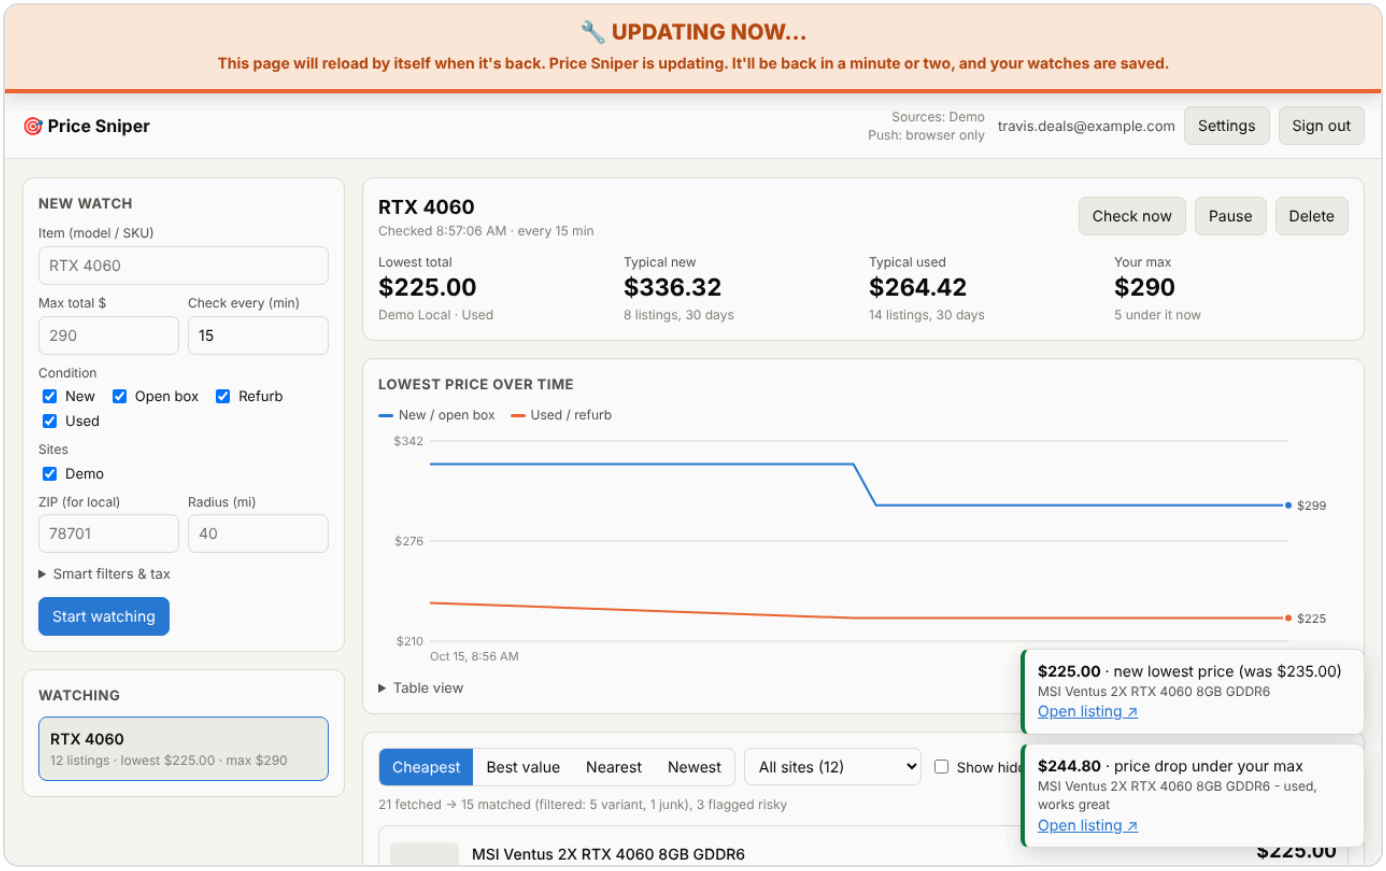

14. **Update countdown on a phone**

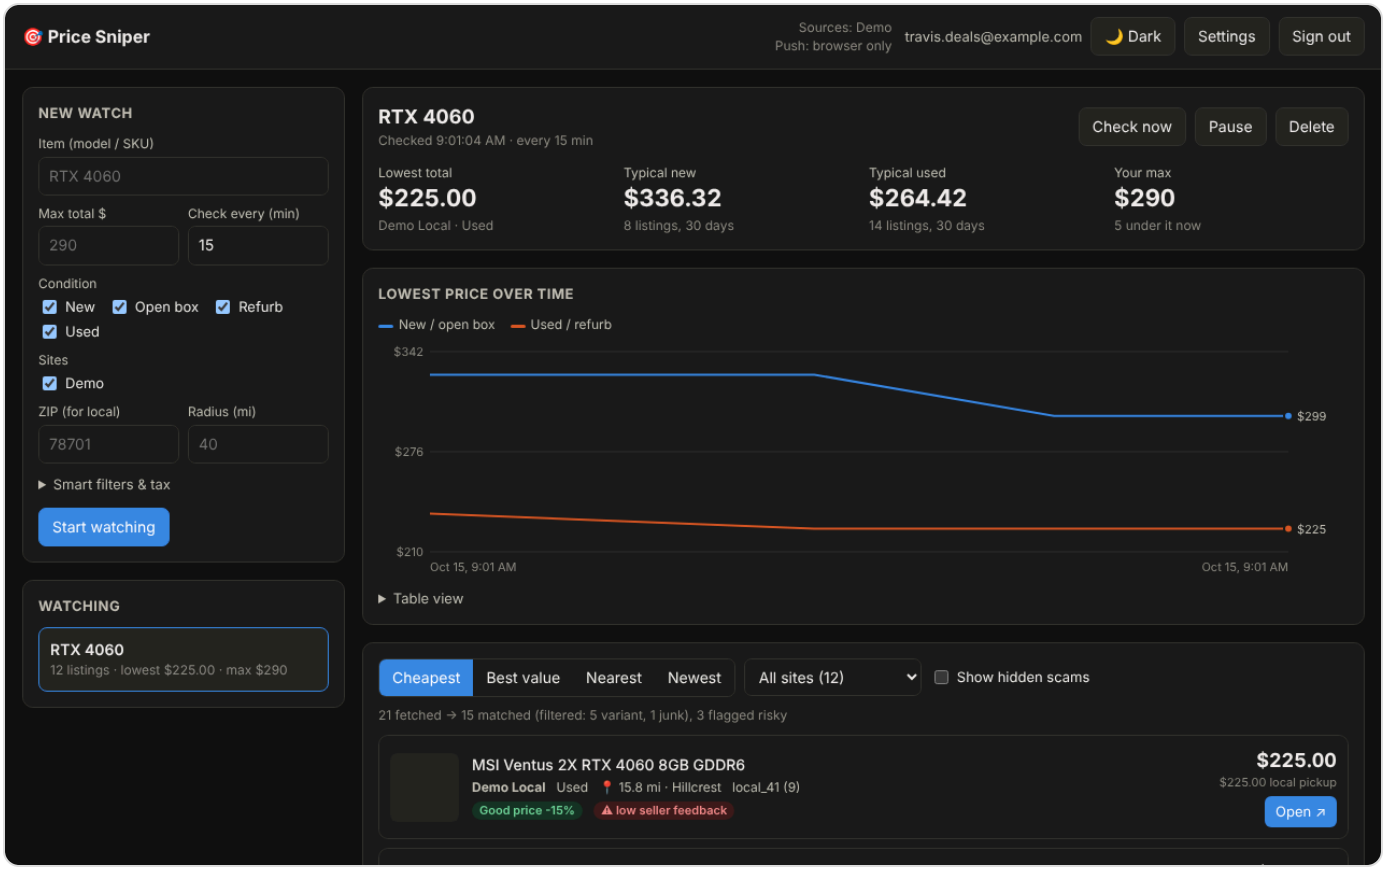

15. 'Updating now' with the old, longer text

Later shortened.

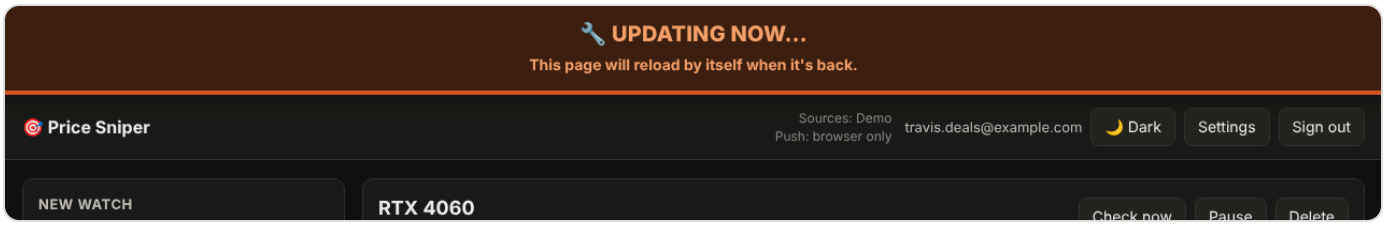

16. Desktop dark mode via the new theme button

The 🌙 Dark button next to Settings (Auto / Light / Dark).

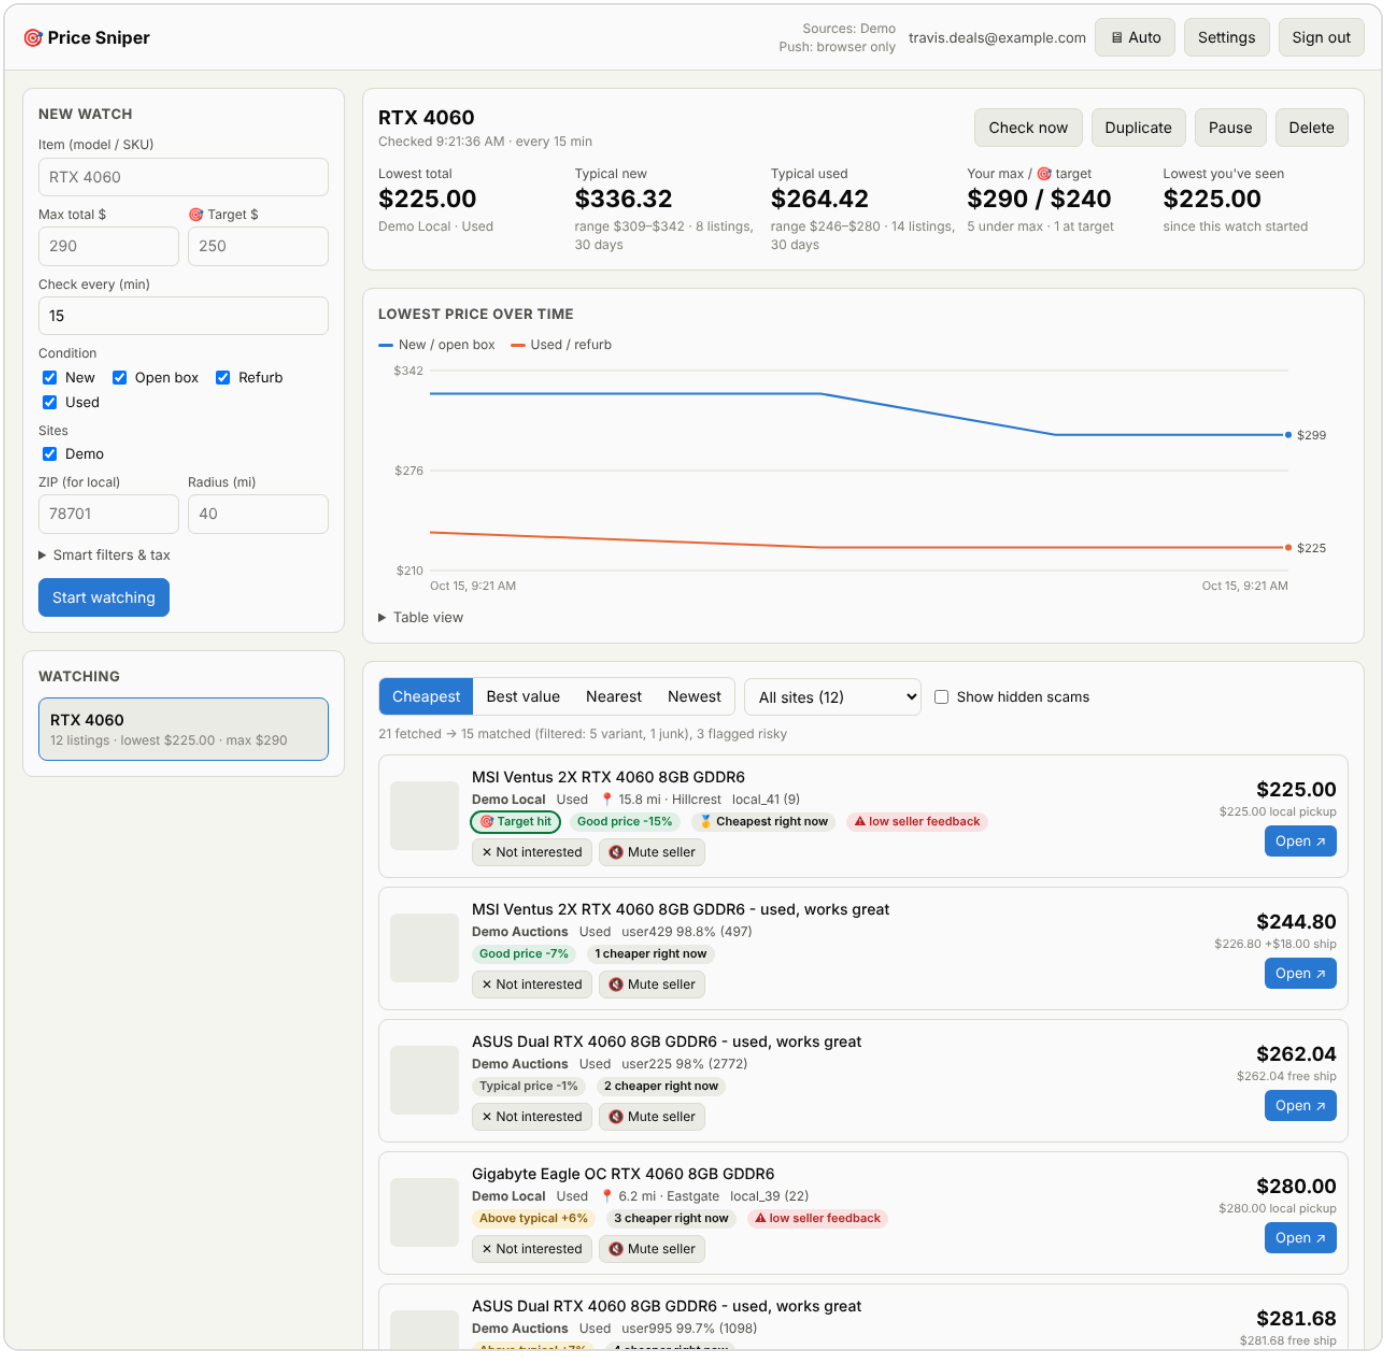

17. 'Updating now', shortened, in dark mode

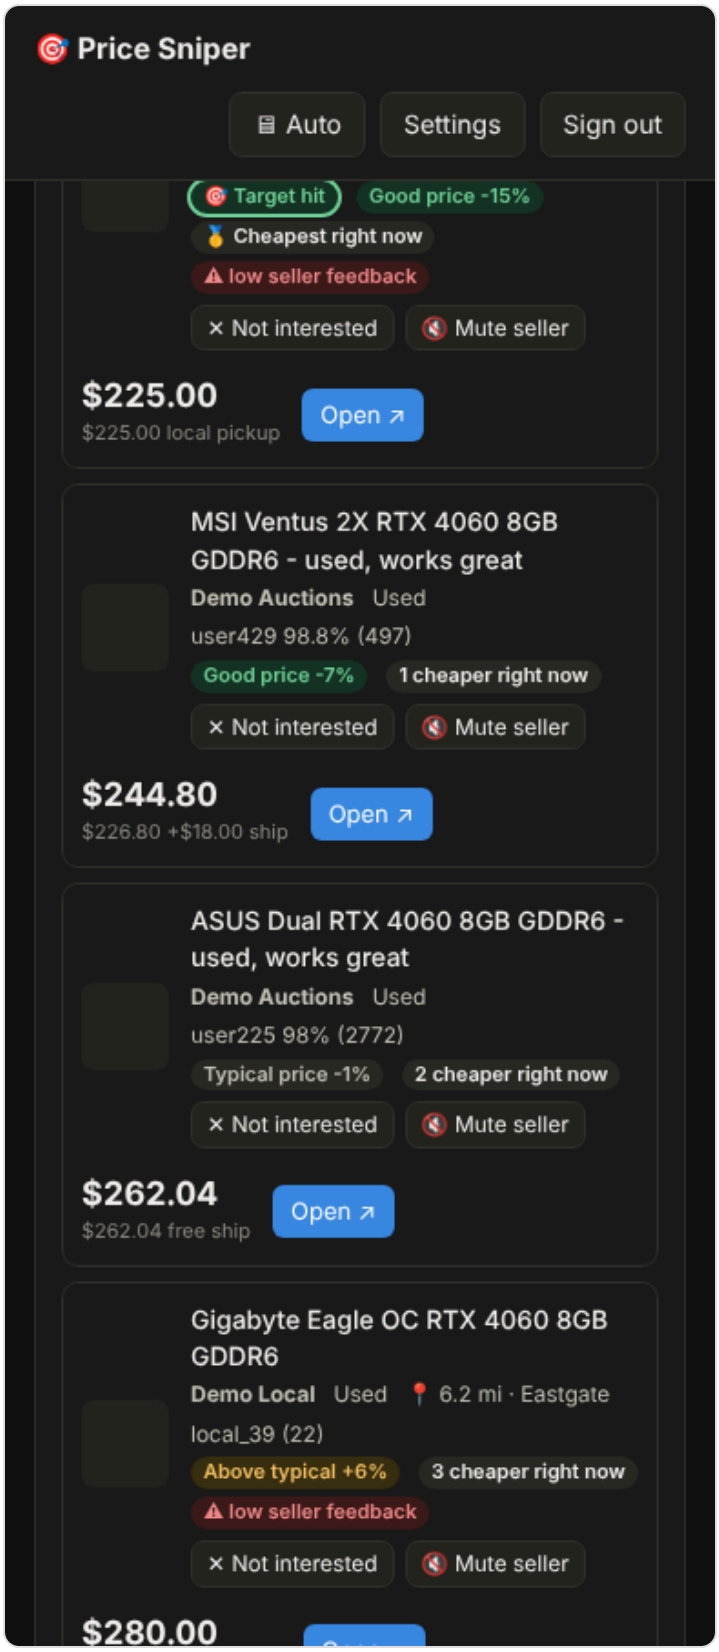

18. Results with the newest badges

🎯 Target hit, 🥇 Cheapest right now, 'N cheaper right now', all scam reasons, Not interested / Mute seller, typical price ranges, Duplicate button.

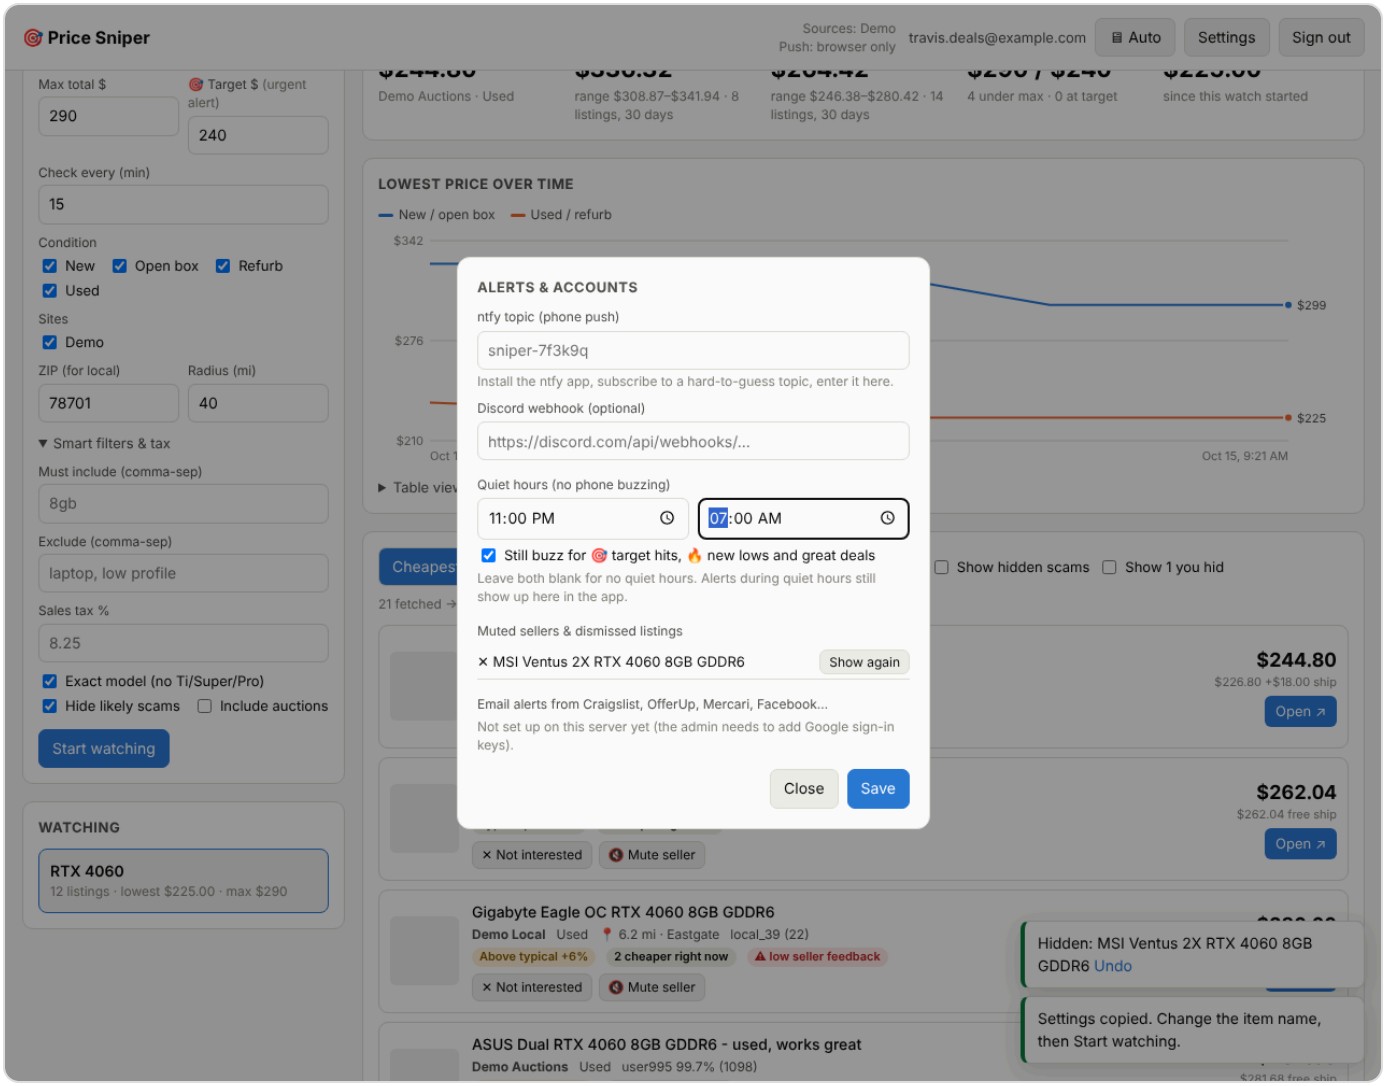

19. **Newest results on a phone (dark mode)**

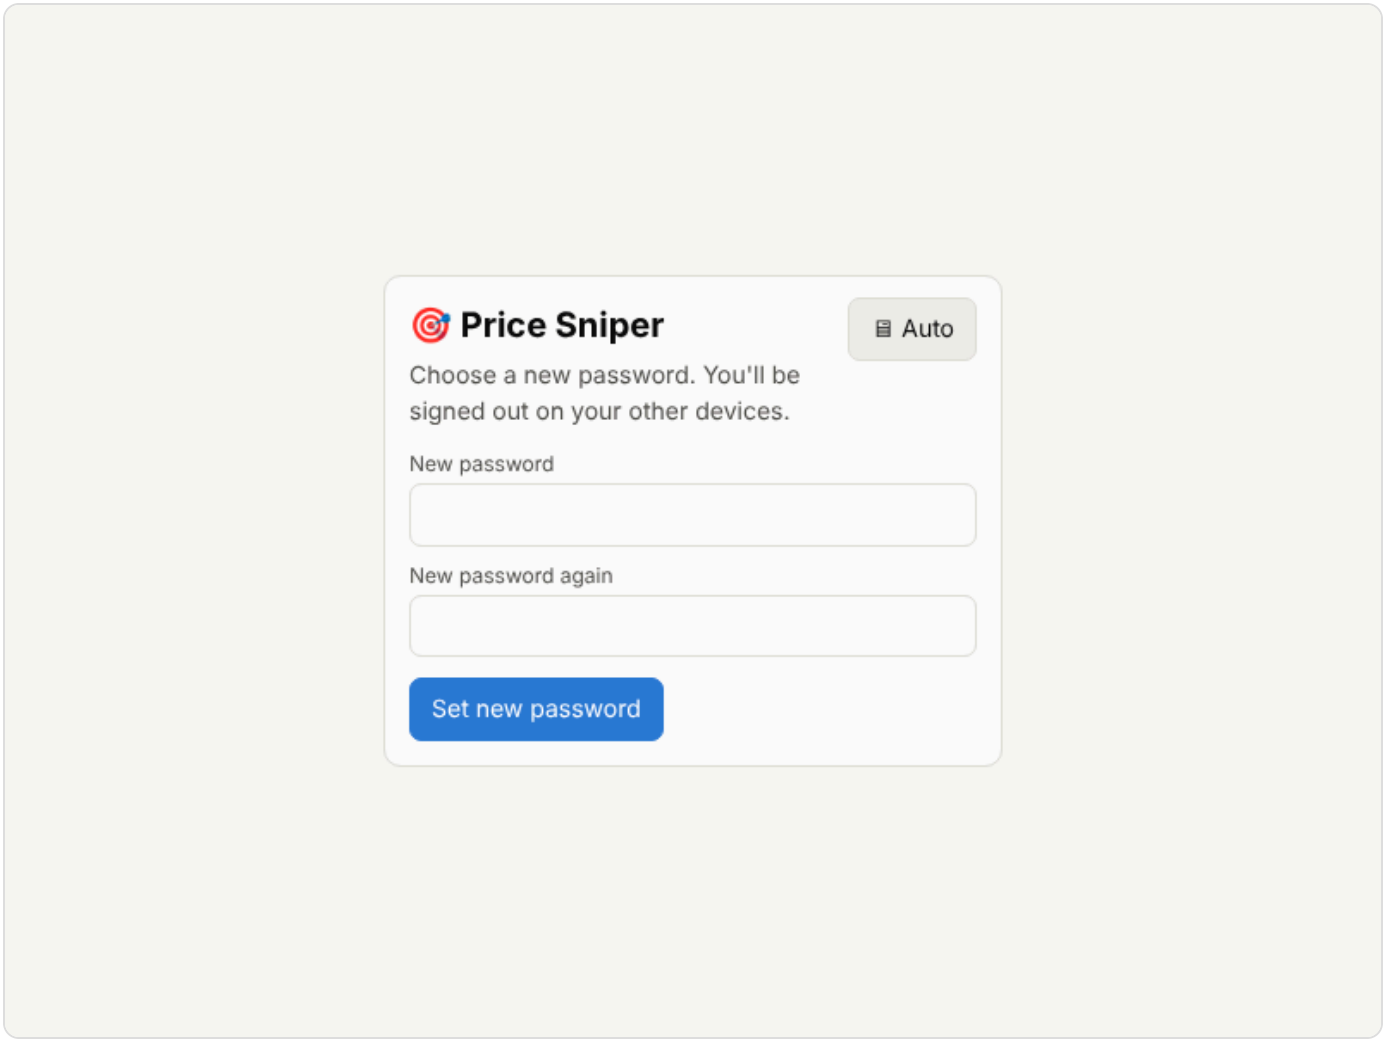

20. Settings: quiet hours and muted sellers

Plus the undo pop-up after hiding a listing.

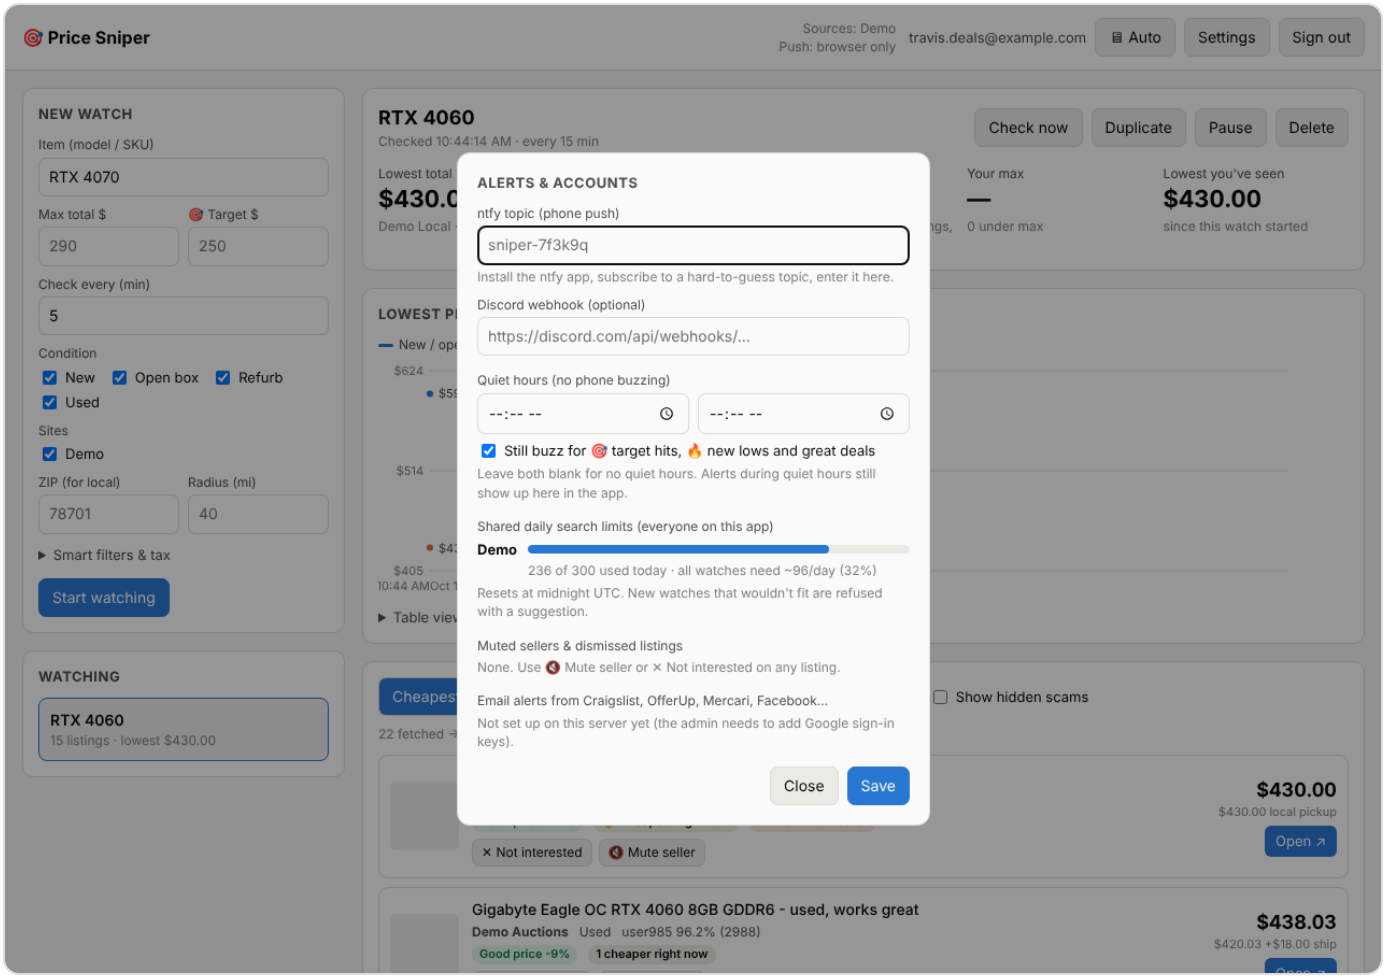

21. Reset password page

Opened from a one-time link made with python -m sniper.admin reset-link.

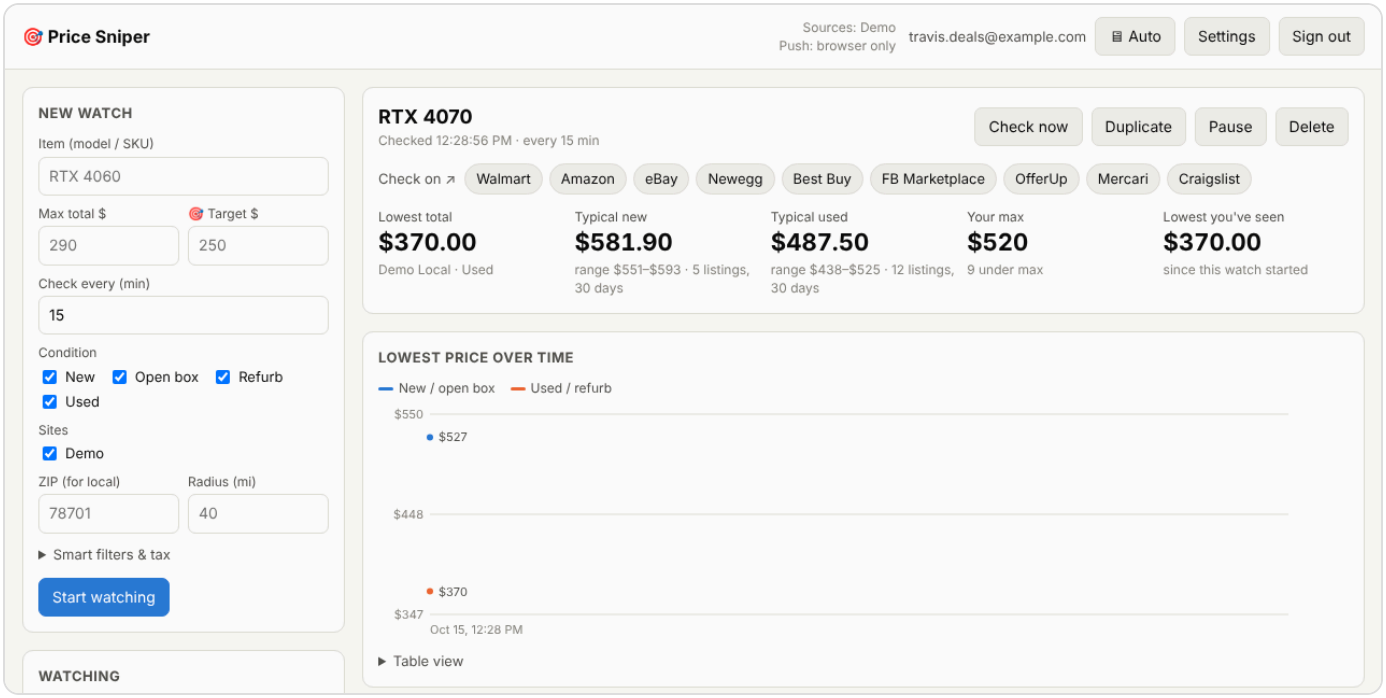

22. Shared daily search limits

Per-site usage bar in Settings (shown with a small test limit of 300).

23. "Check on" quick links

One tap opens that site's own search for the watch (Walmart, Amazon, eBay, Newegg, Best Buy, FB Marketplace, OfferUp, Mercari, Craigslist). No keys needed.

24. **Quick links on a phone (dark mode)**
